Why do Spirometry testing?

- COPD is the 3rd cause of death.
- Asthma is the 1st cause of school absenteeism.
- The only way you can diagnose COPD in Primary Care is through Spirometry.
- The safest way to diagnose asthma is through spirometry.
- The easiest way to manage these pathologies is through follow-up spirometry tests.
- Spirometry is a simple reliable procedure that will allow for a better care of COPD patients.
